HI B2N! WHY B2N?

**WHEN YOU GET BEST QUALITY PRODUCTS
HERE AT HOME, WHY LOOK ELSEWHERE?**

WHO?

Back 2 Nature is a Kolkata based aquarium goods brand, ideated and founded by a few experienced aquascapers who have been with the hobby for a long time now. The aim is to produce superior quality, reasonably priced products for nature aquarium enthusiasts.

WHY?

The inspiration behind Back 2 Nature was actually a problem situation that the founders themselves faced while pursuing the nature aquarium hobby. Like many other hobbyists they often had trouble getting hold of the right aquarium goods. Either they had to pay a hefty sum for good quality international products or settle for inferior products that did not provide the value for the price paid.

WHAT?

Back 2 Nature caters all Indian aquascapers and fishkeepers with a varied range of products which are state-of-art, as well as cost effective. All products are home grown for you, made exclusively in India, tailor-made to suit the needs of everyone in the hobby, from beginners to advanced aquascapers.
