NATURE AQUARIUMS: YOUR KEY TO NIRVANA!

**A SLICE OF NATURE DESIGNED AT YOUR PERSONAL SPACE
BY THE NATURE AQUARIUM EXPERTS OF BACK 2 NATURE**

WHO?

Back 2 Nature is a Kolkata based nature aquarium goods and services brand, ideated and founded by a few experienced aquascapers who have been in the field of expertise for a long time now. The aim is to create state-of-the art nature aquariums/paludariums/vertical gardens and more like never done before.

WHY?

Nature aquariums in India are in vogue now, yet not everyone is able to create or maintain them properly themselves. Back 2 Nature with their team of master aquascapers does it all for you! The experts with their vast knowledge of arts and aesthetics as well as understanding of nature aquarium science creates masterpieces that you simply fall in love with!

WHAT?

Back 2 Nature designs and executes nature aquariums/paludariums/vertical gardens and much more for your personal and commercial spaces. These slices or nature fused into your decor does not only immensely enrich but also does help you inhale the purest form of oxygen released by the live plants. With the use of premium quality products, consultancy based on budget, and AMC; its ensured that you get the best!

NON-PLANTED AQUARIUMS

Non-planted aquariums can be a showstopper at any space. These aquariums are designed with natural wood, rocks, commercial gravel or sand. Non-planted aquariums are designed to mimic the natural environment of certain fish species for their healthy lifecycle.

AFRICAN AND SOUTH AMERICAN CICHLID AQUARIUMS

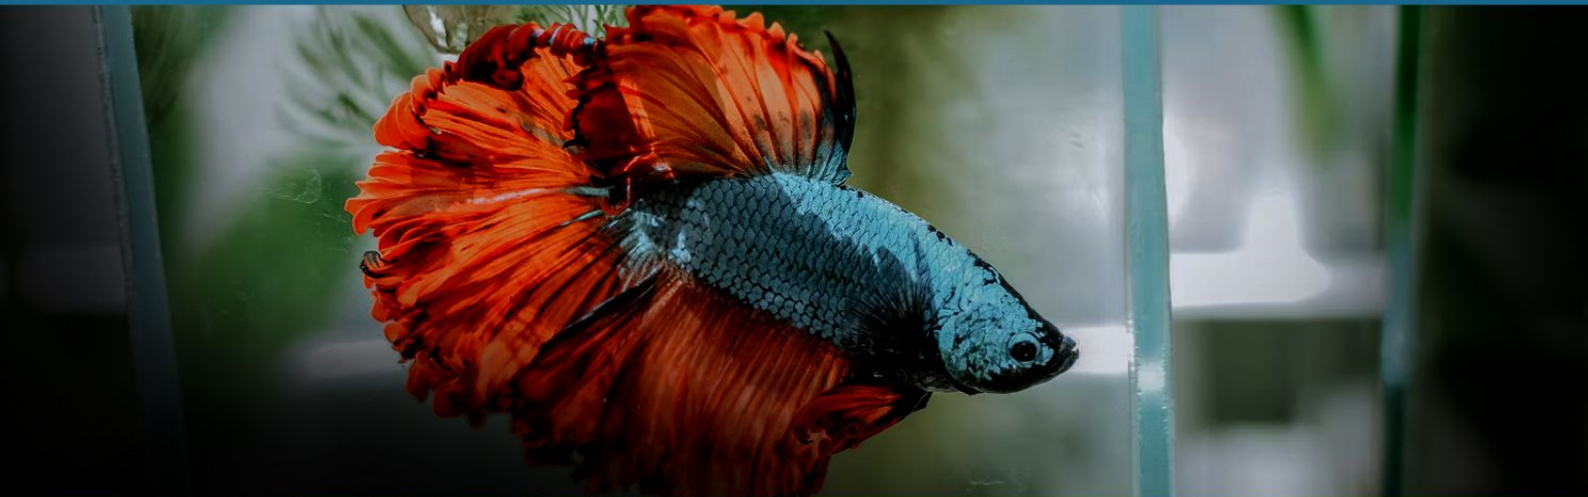

Aquariums for African and South American cichlids are decorated aquariums for the specific cichlid species. Cichlids are colourful fishes and they catch the eye quite easily. These aquariums are designed with stones, gravel and commercial sand. Cichlid aquariums need to be more than three feet or above in length.

DISCUS AQUARIUMS

Discus aquariums are generally large aquariums of more than three feet in length. These are designed for keeping specifically discus fishes. They are decorated in a minimalistic way with natural wood, rocks, live aquatic plants and commercial gravel or sand. Discus aquariums need higher maintenance level than other aquarium types.

BETTA AND PLAKAT CUBES

Betta cubes are small aquariums designed to keep only Bettas and Plakats. Back 2 Nature recommends only one male betta fish in an cube of minimum ten inches that is designed with natural wood, rocks, gravel or sand and a few live aquatic plants. Bettas and Plakats are tropical fishes and need utmost care during the winters to survive.

PALUDARIUMS AND TERRARIUMS

Paludariums and terrariums are very low maintenance installations that are niche and glorifies the decor of your residential as well as commercial space. Paludariums consists of natural wood, rocks, commercial substrate and sand, and both live and aquatic plants. Terrariums are made of a mix of air plants and terrestrial plants.

VERTICAL GARDEN AND TERRA WALLS

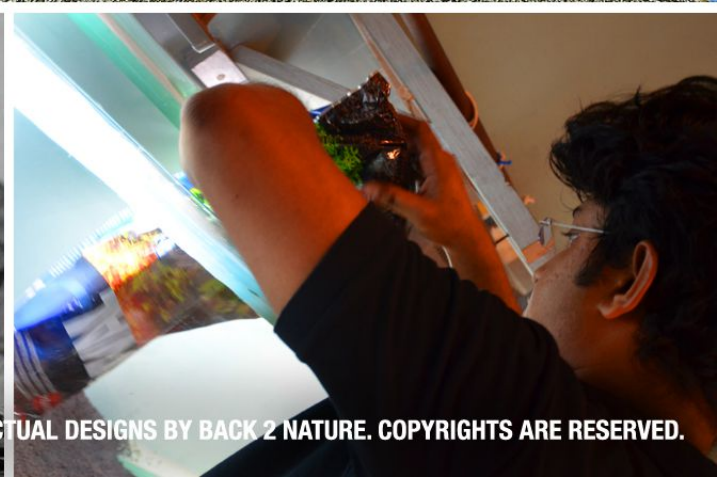

Vertical garden or terra walls are unique installations that make your residential or commercial space bask in the glory of Mother Nature. They are layouts with natural wood, rocks, live terrestrial plants, and air plants. Back 2 Nature terra walls carry the signature designs like never before. These walls look grander when larger.
